**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

The moderate north to northeasterly wind will make it feel unseasonably chilly on the summits, and appropriate clothing should be considered if spending any length of time walking or hiking on the higher routes.

Forecast for Monday 31 Aug 2020

Weather: Overnight will be dry with clear spells and it will turn rather chilly for the time of year. After that chilly start, Monday will be dry with sunny intervals throughout the day.

Maximum wind: South to southwest 15 mph with occasional gusts 20-25mph.

Chance of cloud free mountain/hill tops above 800m: 100% throughout the day.

Visibility: Very good, with clear views of distant hills and peaks.

Temperature: **Valleys:** Plus 4 Celsius becoming Plus 15 Celsius.
At 800m: Plus 4 Celsius becoming Plus 7 Celsius.
Freezing level: Above the summits.
